Questions:

I know this a bit early I'd like to know the dates of the bridge replacement on Rt 66 near the Subway? Also do you know if with the easy alternate routes will that section of Rt 66 be closed completely to Traffic?

Answer:

The Bridge replacement on Route 66 is slated to occur starting spring of 2018. There will be periods of time that will completely close Route 66 to traffic. There will also be time before and after the real construction when traffic will be open to one lane at a time.
