

Questions:

What is the status of Staeth Road? With many people going around the lake, to avoid the North Main Street construction, we are now met with a road that was dug up - it seems re-dug up each day.

Why is the work blocking both ends of Lake Road. I fear at times if we needed help it would take too long to get here. It appears that there is no actual work being done on either site. Have to leave for work 45 minutes early

Answer:

The major portion of the construction on Staeth/Lake Drive should be wrapping up by Friday, September 16th and the construction at Christopher Brook, North Main Street has not been active for two weeks but should resume on September 26th, weather permitting.
